OH, EXCUSE US, SIR!

WE’RE REPRESENTATIVES FROM THE P.D.C. - THE POPTROPICA DISEASE CENTER!

THE CC13 VIRUS.
Lucky, since the duck's so rare, there's no possibility of a huge outbreak.

But just for the abysmally small chance that the duck would bite someone and spread it to the general population...

We're going to isolate the virus from its saliva and make a vaccine to cure it!

Well, ain't that the darndest!

I'll treat you all to maple syrup smoothies!

Ooh...

Quack!

Um...

Great!

I'll leave the virus sample at a safe distance.

Let's set up camp and we'll hike out tomorrow.

Wow! Everyone! Look at all these authentic, wild trees!

Time for a photo-op stop!

Stop the bus!

But I can't eat my snack with nothing on it!

This cost me ten Canadian bucks!

Oh hey! What's that?

...weeeell, it might have initials but I don't see anyone's name on it...

The next morning...

Ugh, how much maple syrup did I drink last night?

Oh, well. Pack up the gear, folks. I'll get the -
